

## GREENLAND HALIBUT FISHING - pp. 8-21

What is the tool called that the man uses for fishing?

How does the “glider” work?

How does it affect employment in Ilulissat that fishing of prawn has become more important than fishing of Greenland halibut?

---

---

---

---

## SEAL HUNTING - pp. 22-33

How many seals are there?

How do winter and summer hunting differ?

Seal meat contains proteins and fat. For what does the body use these nutrients?

---

---

---

---

---

## WHALE HUNTING - pp. 34-45

Why was an umiak and not a kayak used for whale hunting?

What are baleens? Do all whales have baleens?

What is the phenomenon “sassat”?

---

---

---

---

---

## THE SHAMAN – NATURE AND HUMANS - pp. 46-53

Watch the animation in the ice floe – who is the Mother of the Sea? What function do myths and legends have in a community?

What can the shaman do to give better luck in hunting and fishing?

---

---

---

---

## PREPARATIONS FOR THE HUNT - pp. 54-59

What qualities from a walrus could be useful to have part in by carrying a walrus claw? Find an example of an amulet from another culture than the Greenlandic and describe in what context it is used. How could the woman catch the animal when it was the man who went hunting?
