

THE LITTLE SCIENTIST

Eleven movements of the cryoscape

FIND THE ROOM

ELEVEN MOVEMENTS OF THE CRYOSCAPE

In the room there are eleven speakers with the sound of ice, wind, waves and earthquakes, as well as human activity.
On the map you can see where in Greenland the sound comes from.

Start by listening. The order is up to you.
For each sound, note or draw what you hear from the station.
(answer sheet 1)

Choose three stations you think stand out. Write the name of the station, the sounds you heard and what atmosphere you experienced.
Use your notes. (answer sheet 2)
