

THE LITTLE SCIENTIST

Glaciers and the ice sheet

FIND THE THREE ICE FLOES AND THE TABLE MODEL ILLUSTRATING GLACIERS AND THE ICE SHEET

To each ice floe and the table model there are two questions. You find them in the answer sheet. Write or draw the answers on the answer sheet.

The book *Glaciers and the ice sheet* can help you with answers to some of the questions.

FIND THE SECRET WORD

The ice forms stone blocks such that they have glacial striations on their surfaces as well as pointed noses. Combine the letters in the circles to a word that is part of the name of these blocks.

The word is:
